

Leduc Jean

Digital système BTS student

HERE'S MY STORY:

From a very young age, I liked to touch computers to create things. Today at 18, I have decided to use this passion to put it at the service others.

MY EXPERIENCES:

My 3rd year internship

DONE IN A COMPUTER STORE

- I understood the relationship that must be had with customers
- I could see what the job is like thanks to this internship
- I learned to organize myself to carry out the tasks I had to do during my internship

Video/image/sound editing for projects

- Video editing of any type
- Image editing for thumbnails or cover
- Music mix for different artists

EDUCATIONAL INFO:

My high school years

MY EXPERIENCES, THE DIPLOMA, ...

- Specialty: Mathematics and engineering sciences
- Group work in engineering sciences
- Obtaining the baccalaureate in 2022

The sport

- 5 years of soccer
- 4 years of ping pong
- Currently I have been playing volleyball since the beginning of 2022

SKILLS:

- Have basics to code (HTML, CSS, C++)
- Know how to mix sound
- Master video and photo editing software
